

Section 15: Tiny House Builders

Arched Cabins

<http://archedcabins.com/index.html>

Arched Cabins is a family-owned and operated business. They manufacture cabin kits for a number of different purposes and uses. If you've been looking into tiny houses, they offer a number of sizes under 400 square feet. Arched Cabins are perfect for use as a storage shed, hunting lodge, steam room/spa, restroom, or just a sleeping space protected from the elements.

Aussie Tiny Houses Coolum Beach, Queensland, Australia

<https://aussietinyhouses.com.au>

Aussie Tiny Houses have over 35 years of experience in the building and design industry. They specialize in optimizing small spaces and designing beautiful, practical

and affordable tiny living solutions. They are passionate about sustainability and also offer to complete off-grid alternatives that will enable you to greatly reduce your ongoing living costs. The off-grid tiny house solutions include solar, composting toilets and water catchment.

Big Freedom Tiny Homes Bellingham, Washington
<https://www.bigfreedomtinyhomes.com>

Big Freedom Tiny Homes owner, Shannon Black, builds each unique tiny house design by hand one at a time, in the beautiful Pacific Northwest. Every tiny house detail is considered in the design and build of these artisan homes. High-end finishes and details are used throughout with quartz/granite countertops, quarry stone or tile backsplashes, stainless steel appliance, hardwood flooring, top of the line on-demand propane hot water heater or electric 30-gallon tank water heater, all LED lighting, cedar-lined bathrooms and more.

Blue Forest East Sussex, United Kingdom
<http://www.blueforest.com>

Blue Forest is an award-winning treehouse company who pride themselves on their highly skilled team, including architectural designers, interior

designers, and project managers. They have a network of craftspeople, suppliers, engineers, and manufacturers who work with them to ensure their treehouse schemes are at the forefront of the sustainable luxury tiny house design. The Blue Forest team are passionate about the wellbeing of the environment and are keen to promote sustainable building principles and ethics throughout the tiny house design and construction process.

Carpenter Owl Bloomington, Indiana
<https://www.carpenterowl.com>

Carpenter Owl specializes in creating unique tiny house structures from natural building materials. They design and build around the needs and wants of their clients, creating environments that are low in both chemicals and allergens. They attempt to use reclaimed and locally sourced building materials wherever possible, believing fundamentally in a need for sustainability. They offer the opportunity for their clients to be involved in the entire process from concept to finish. Most of their tiny house structures are custom and fall into the categories of tiny homes, studios, or excursion structures.

Hideaway Tiny Homes Denver, Colorado
<http://myhideaway.life>

They can navigate the zoning and permitting process for you and can provide a fixed price construction contract with clearly defined materials, methods, and costs.

Nelson Tiny Houses Nelson, British Columbia

<https://nelsontinyhouses.com>

Nelson Tiny Houses is a locally-owned, family-run and sustainably-produced company that builds superior tiny houses. As tiny house builders and designers, they are inspired by the mountains, forests, lakes, and culture of southern British Columbia. Nelson Tiny Houses offers a highly customized approach to

building tiny houses. The small, family-run company builds only 4 to 5 tiny homes a year and works intimately with each client to provide a completely unique, finely crafted, personalized, fully-equipped dream tiny home. For those who prefer, they also offer feature tiny house models and complete designs to choose from. All houses are CSA approved and offer a 5-year structural warranty. The team includes fine woodworkers, metal workers, and artisans who work together to make each tiny home comfortable, modern living space and a work of art.

Nelson Treehouse Fall City, Washington
<https://www.nelsontreehouse.com>

Nelson Treehouse is a design firm that brings people together through the creation of exquisite, custom treehouses. They take great pride in their team, process, and product,

and believe that their passion for craft and community elevates the experience they offer their clients. They bring the magic of the treehouse life to families and organizations around the world and have a lot of fun along the way. They offer everything from full-scale design and build services, to consultations for those building their own backyard treehouses, they specialize in bringing treehouse dreams to life.

New Frontier Tiny Homes Nashville, Tennessee
<https://www.newfrontiertinyhomes.com>

New Frontier Homes has over 40 years of building and design experience and with hundreds of full-scale home designs completed, they bring a unique perspective to the challenges and opportunities of tiny house designs. Their goal is to help improve lives by supporting sustainability, economic freedom, and intentional living. They believe that great home design and quality housing should be both affordable and attainable.

Rewild Homes Cobble Hill, British Columbia
<http://www.rewildhomes.com>

Rewild Homes build compact, high-quality, portable tiny cabins on Vancouver Island using locally sourced building materials. They are simple, sustainable, and specialized. They started the company to follow their dream of making a difference in the community and began offering an alternative to the high housing prices that so many people face across British Columbia. Most of their tiny homes stay on the coast, either on Vancouver Island or the lower mainland, but they've shipped homes across North America and even to Hawaii.

Sierra Tiny Houses Sacramento, California and Reno, Nevada
<https://www.sierratinyhouses.com>

Sierra Tiny Houses is a Northern California and Northern Nevada tiny house builder. They have different tiny house models to give you a variety of solutions to meet your budget and lifestyle. Whether you want to buy a new custom tiny home you can call your own, or you just want to make a little extra income by renting your tiny cottage out on Airbnb, they have something to meet your needs. For the DIYer, they are also a dealer for Trailer Made Trailers, the dominant trailer company in the tiny industry. They can provide you with a trailer, steel frame or even a tiny home kit, which is a bundle to jump start your construction.

Smallworks Vancouver, British Columbia
<https://www.smallworks.ca>

Smallworks have built more than 100 beautiful, custom, lane homes, more than any other laneway housing builder. Each of their lane houses is designed to specifically meet their customer's needs. They offer the latest in design innovation and space-saving solutions. Their full-time construction crew is experienced and courteous, ensuring a clean, safe job site with minimal disturbance for you and your neighbors. Building a laneway house is the best way to pull some equity out of your property and still own it. Lane houses can be used for extended family use, or to provide cash flow through a rental, the tiny homes offer plenty of flexibility.

Summerwood Toronto, Ontario
<https://www.summerwood.com>

Summerwood Products has been designing and building architecturally styled garden sheds, pool cabanas, home studios, garages, playhouses, gazebos, and small cabins for more than 25 years. They build everything from traditional classics to sleek and modern, with a range of design choices. They ship their products throughout North America and beyond. They are a diverse group who share the same desire to create exquisitely crafted garden sheds, cabanas, gazebos, and cabins that will provide a lifetime of memories and enjoyment.

Summit Tiny Homes Vernon, British Columbia
<https://www.summittinyhomes.com>

Summit Tiny Homes are the Okanagan's premier tiny home builder, located in the heart of British Columbia. Their vision was born on the prospect of sustainability, versatility, and freedom. The Okanagan has so much to offer and they felt like they were always too busy to grasp all of its glory. The decision was simple, they knew they could bring

the tiny home movement into their lives and introduce it to the Okanagan Valley. They know the Okanagan building standards are high, so each of their tiny homes are gleaming with charm, quality, and craftsmanship. Each tiny home is handcrafted in Vernon British Columbia, with the ability to bring your home to you.

Teacup Tiny Homes Lethbridge, Alberta
<https://teacuptinyhomes.com>

Teacup Tiny Homes is set and built on the concept of enjoying everything life has to offer and living, feeling, and experiencing all of the moment life has to offer. This core value is the root of all that they do. They provide functional tiny house designs for people to enhance and enrich their lives. No matter what the tiny

house design or build may be allowing their clients to live happier, freer and less tied down by the space around them is their fundamental purpose.

Tiny Homes Canada Abbotsford, British Columbia
<http://www.tinyhomescanada.com>

Tiny Homes Canada specializes in custom-built tiny house designs, specially designed to suit your unique needs. They know just how important every square inch of space is

in your tiny house and your home should be built to accommodate you. This tiny house team, based out of Abbotsford, BC, is proud to use repurposed, ecologically friendly, and environmentally sustainable building materials to build your tiny house. From an idea and a dream to a liveable reality, they are there to guide and support you through every step of the tiny house process.

Tiny Heirloom Tualatin, Oregon
<https://www.tinyheirloom.com>

Tiny Heirloom is recognized as the world's leader in custom tiny homes. By relentlessly pursuing perfection they've continued to set a higher standard and challenged the impossible while creating tiny homes that have been called masterpieces of craftsmanship. From tiny houses on wheels to small homes on

foundations, their expertise in design, architecture, tiny house construction, and interior finishes has taken small house living to a whole new level. The unmatched quality, attention to detail and passion for the craft sets a new standard for each of their custom homes.

Tiny Innovations Portland, Oregon
<https://innovatetiny.com>

Tiny Innovations gets you started on the right foot. Save a huge amount of time and make sure the fundamental structure of your tiny home is soundly built by experts to last a lifetime. Start your DIY Tiny house building project with a tiny house shell from Tiny Innovations. Their tiny house shells include a trailer, which includes brakes, lights and more. Also included are the walls, subfloor, and roof. The walls and roof are framed and attached to the trailer, with the sub-floor embedded. The shell has water-resistant framing and an ice and water shielded roof.

Tiny House Crafters Londonderry, Vermont
<http://www.tinyhousecrafters.com>

Tiny House Crafters is a family-run tiny house design, build, and consultation firm located in southern Vermont, serving New England and beyond. Anderson has been building tiny houses since 2013 and Kate is happy to have a hand in all aspects of the tiny house building process. Together they have loads of experience building tiny houses for northern climates with a specific focus on off-grid and utility systems.

Tumbleweed Tiny House Company Colorado Springs, Colorado
<https://www.tumbleweedhouses.com>

The Tumbleweed Tiny House Company has been building tiny houses since 1999 and is one of the largest manufacturers of Tiny House RVs in North America. Their tiny house designs are innovative, industry-leading tiny house RV designs. From the earliest stages of your tiny house design, their designers are thinking not just about form and function, but also cost and customer satisfaction. Their responsibilities take them far beyond their desktop, into extensive feedback sessions face-to-face with Tumbleweed owners and even to the factory floor. Tumbleweed Tiny House RVs are built in a quality-controlled environment where consistency, stringent regulations, and the highest standards are the norm.

Wheelhaus Jackson, Wyoming
<https://wheelhaus.com>

Wheelhaus provides the first affordable high-end modular tiny homes delivered to your property. Wheelhaus tiny homes are delivered on wheels turn-key ready for immediate use and can be moved to another location later if needed. Designed to withstand hurricane winds and heavy snow loads, Wheelhaus tiny homes can be placed virtually anywhere. The high R-value insulation makes these homes incredibly energy efficient which reduces the impact on the environment. They create an amazing sense of size and space with their well-designed floorplans on a smaller footprint. You'll find high ceilings, oversized windows, and eight-foot doors featured throughout all of their models which help to make the tiny homes feel larger. Their tiny homes use less building materials, less square footage, and less waste. They use high-quality craftsmanship, building materials, and design in all of their home designs.

Zyl Vardos Olympia, Washington
<http://www.zylvardos.com>

Zyl Vardos specializes in highly functional, uniquely-styled tiny house structures. The tiny homes are traditionally crafted but engineered in a forward-thinking way. Zyl Vardos was founded in 2007 and is one of the most experienced tiny house building companies in the world. They offer a wide variety of original tiny house designs or can create something completely new. Their unique tiny house designs can be shipped anywhere in the continental USA. Zyl Vardos is known for their absolutely stunning shaped rooflines, handmade windows and doors, and bespoke interiors. They have the best in-house concept to creation ability of any tiny house company. Their tiny house designs are safe, reliable, long-lasting, easy to maintain and hold their value.
